FHANA Categories and Fees (Deadline August 1, 2016)

Foal Book

Category 1: Colts for Foal Book	Included in registration fee
Category 2: Fillies for Foal Book	Included in registration fee
Category 3: Yearling Mares for Premium	\$110
Category 4: 2 Year Old Mares for Premium	\$110

Studbook Mares

Category 5: 4+ Year Old Mares for Studbook	\$135
Category 6: 3 Year Old Mares for Studbook & Ster	\$135
Category 7: STB Mares Repeat for Ster	\$110
Category 8: Premium judging of Ster Mares 4-6	\$110
Category 9: Premium Judging for Ster Mare 7+	\$110
Category 10: Premium Judging of Crown Mares	\$110
Category 11: Premium Judging of Model Mares	\$110

Geldings

Category 12: 3+ Year Old Gelding for Gelding	
Studbook & Ster	\$135
Category 13: Gelding Repeat Inspection for Ster	\$110
Category 14: Premium Judging for Ster Gelding 4+	\$110

Stallions

Category 17: 3+ Year Old Stallions for Studbook	
& Ster	\$120
Category 18: Approved Studbook Stallions (Mandatory)	\$100

FHANA Categories and Fees (Deadline August 1, 2016)

Performance Test

Category 20: IBOP Riding or Driving \$200

(Please specify A= Riding or B=Driving)

Predicate Fees (To be paid after predicate awarded and before new papers are issued)

Ster \$100

Crown \$100

Model \$100

Preferent Status \$100

Miscellaneous

Change of Venue \$25

Late Fee

Received by FHANA office after 8/1/16 \$50/horse

Received by FHANA office after 8/15/16 \$300/horse

Additional Information

-Deadline for entry is August 1, 2016. Fees for late entries are listed above. **No IBOP entries will be accepted after August 15, 2016.**

-Judges will select mares for Crown and Model along with stallions for Central Proving out of the existing classes. Fees for Ster, Crown, Model, and Central Proving will be paid before papers are issued.

-Owners of horses to be inspected MUST be a FHANA Full or Business Member for the 2016-2017 membership year. Entries will not be processed until memberships are current.

-All cancellations will be assessed an office fee of \$75 **per horse**. The remainder of fees will be considered for refund with appropriate medical documents from vet or M.D. ****Cancellations are allowed only in cases of sickness of horse and/or horse owner, with medical documentation from doctor or veterinarian. All other situations will be considered on a case by case basis.****

-Sites may impose additional fees for stabling, bedding and site rental. Please check with site host for any fees not included in this list.

General Information

1. Sign up for inspection at location of your choice

2. Contact the site host:

Find out what is required to show at your chosen inspection site. Most of the clubs that host the Inspections may also offer a website where you can download site forms, maps, directions, hotel and restaurant information. IMPORTANT: contact the site host immediately with any changes, late additions, withdrawals etc.

3. Site requirements:

Most sites will have their own entry forms, independent from those filled out for FHANA. These may include additional payment requirements such as Stall fees, parking fees, RV fees, Share of cost fee* or an administrative fee*. (* Share of cost and or an administrative fee, is a fee charged to each individual or horse and goes towards the overall cost to rent the facility and run the Inspection. This fee will vary by location and is at the discretion of the site host.)

4. Veterinary site requirements:

All sites require a mandatory Coggins test report for all horses 6 months and older. Many sites will also require a veterinary health certificate. Both are required for any horse crossing states lines, and an International health certificate and Coggins are required for any horses coming to and from Canada. (Coggins tests are good for six to twelve months, depending on the state. Check with the inspection site hosts and or your veterinarian as to requirements for your state and any state you

may be traveling to. Health certificates are good for only 30 days). All certificates and or/test results must be turned in to the site host prior to the inspection. Horses arriving without the required documents will not be permitted to remain at the inspection site and will not be allowed to participate in the inspection.

**Prior to the inspection all foals are required to have been micro chipped.

5. Suggested questions to ask site host if not already provided:

- Do you have a deadline for site forms, site payments etc.?
- What time does the inspection start?
- What time should I arrive?
- What are the Facility Amenities? i.e. stalls, bedding, wash racks, RV hook ups.
- If I'm arriving the day prior is there a night watchmen/or volunteer staying at the facility?
- Will there be a check in booth and or club booth/information booth during the show?
- Will the site host and organizing volunteers be wearing identifying items?
- Can I have the cell phone numbers of the major organizers, in case of an emergency?
- Is there a professional photographer and /or videographer?
- How much CASH is required/should I bring, to pay the professional runners to run my horse?

General Information

6. What do I need to bring?

- A. Your original foal's temporary registration paper (blue paper) and or your adult horse's laminated registration paper, your original Coggins report and/or health certificates,
(we suggest you make and retain copies of all pertinent paperwork for your records).
- B. For stalls, you can plan to bring stall cleaning equipment, water buckets and feed. A hammer or tool to remove any nails left on stall walls from previous shows. (While the site host may do a safety check of all stalls, sometimes a nail can be missed) It is your responsibility to make sure the stall walls are safe for your horse.
- C. Show tack (see tack requirements).

7. Clothing suggestions and requirements:

- A. Show Clothing for the Inspection- If you choose to run or handle your own horse, it is traditional for the runner to wear white pants, white shirt and a black tie; assistants/handlers should also wear white; white clothing is traditional and considered respectful to the judges. If you cannot wear white, neat clean conservative clothing is acceptable. Owners will be asked into the ring to accept awards and get their photos taken. Bear this in mind when choosing an outfit. In many cases, there are more horses than runners in a class. In that event, you or someone you designate will need to be able to lead your horse around the arena at the walk. This may be required at the start and end of a class before the final placings are made. Your horse is being judged at this time! Be sure to have an able-bodied person available to do this that is wearing shoes suitable for handling horses.

- B. Show clothing for the ridden IBOP test: National Level Dressage attire is appropriate. Conservative driving attire is preferred for the driving test, including an apron and gloves. Safety certified helmets are mandatory for riders, carriage drivers and passengers.
- C. Show clothing for driven IBOP tests: Drivers should adhere to the general rules of carriage pleasure driving in North America. This means men should wear a jacket and tie, driving apron or lap robe, helmet or hat, and gloves (preferably brown). Women should wear long sleeve blouse or jacket, driving apron or lap robe, helmet or hat, and gloves. Gaudy or revealing clothing is not appropriate.

8. Tack requirements:

- A. Horses 3+ or older are required to be shown in a headstall and bit (a white headstall is traditional) bits can be snaffle bit with a French link or Mullen mouth piece. Headstall should be accompanied by a matching lead. Optional lead items are a stud chain, V chain or in hand attachment. Foals should be shown in a halter (white is traditional) dams of foals presented, may be shown in a headstall like the above mentioned, or halter. Yearlings can be shown in a halter; two year olds may be shown in a halter or the above mentioned headstall.
- B. **Not Allowed**; Bits cannot have a curb mouth piece, shanks or curb straps. Headstalls cannot have reins or cavessons.

9. Pre- Inspection medical information:

- A. Sick horse: **A sick horse should not be brought to an inspection site.** If you plan on bringing a horse that has a

General Information

minor illness or injury that is not contagious, please ask the site host if you can bring the horse, if you provide a report from your veterinarian stating that your animal is not in any way contagious and that showing it is not detrimental to its health. If you arrive with an ill animal that the site manager has any concerns about, they may choose to move your horse away from the other animals. They may ask you to have the animal examined by the on call veterinarian (at your expense) or may ask you to leave the inspection site.

- B. Scarred horse: If your horse has scars or blemishes, something they were born with, (i.e. surgical scars, white hair growth on injection sites etc.) have written veterinary proof of the circumstances, so that the judges don't count it against the horse as a birth defect, conformation defect, etc. Bring this proof to the arena with your papers.
- C. Lameness: If your foal or horse is lame on inspection day, you should not show it. Lameness will not be accepted into the studbook and this fact will be printed on their papers.
- D. Sites will be randomly chosen for drug testing. FHANA will acquire a veterinarian to randomly sample Champion or Reserve Champions at the undisclosed site. A FHANA representative will be available to supervise the test and randomly draw the horses to be tested. The veterinarian will draw a blood sample from the randomly chosen horse; the sample will then be shipped to the USEF laboratory for testing. A sample will ONLY be taken from your horse if they are awarded Champion or Reserve Champion in their respective class. By

signing the liability and drug testing waiver form with your entry, you are authorizing FHANA and the appointed veterinarian to draw blood from your horse to be sampled. If you refuse to sign the liability and drug waiver form, you will not be allowed to participate in the keuring.

10. Pre- Inspection shoeing information:

- A. Horses age two years and older may be presented with all four shoes or barefoot.
- B. With shoes: only standard horseshoes may be used. Maximum thickness of the shoes is limited to 8mm (5/16 of an inch), and width of the shoe is limited to 25 mm (1 inch). No wedges, pads, corrective, or other additions to the shoes are allowed. Judges may exclude horses presented with shoes that are not in compliance with these rules or allow the horses to be presented only after the shoes are removed. Excessive foot length may also result in exclusion.
- C. Without shoes/barefoot: hooves should be in good health and evenly trimmed.

11. Pre- Inspection grooming information:

- A. The black color and the long hair on fetlocks, mane and tail are characteristics of the breed: horses should be shown close to natural with free flowing untrimmed/uncut manes and tails.
- B. Allowable clipping: a bridle path of 2cm or 0.75 of an inch, at the location of the bridle's crown.
- C. Allowable grooming: you are allowed to use show sheen, hoof blacking or hoof oil.
- D. Not permitted: dyeing or the use of black sprays, hair sprays or any other methods to make the coat, fetlock hair

General Information

and mane or tail hair look blacker. Also not permitted is the addition of hair or other materials to the tail or mane (extensions), long bridle paths, glitter, trimmed manes or trimmed hair at the base of the tail.

- E. NEW KFPS grooming rules. (Not yet mandatory or enforced for horses showing in North America. The new KFPS grooming rules are currently optional.) Exhibitors are not to clip the inside of the horse's ears. (You may gently squeeze the edges of the ear together, trimming only the protruding hairs and edges.) The whiskers around the horse's eyes are not to be cut or trimmed. The muzzle whiskers are to be trimmed no shorter than a length of 2 cm or 0.75 of an inch.

12. Pre- Inspection Training information:

- A. Other than foals, horses should stand quietly and walk and trot in hand obediently. The horse should show a good walk and trot in hand. A disobedient horse is a danger to the runner and difficult to evaluate for the judges. High marks cannot be given if the horse does not walk (jigs) or if they continually break into the canter.
- B. Horses 2+ years should be comfortable with the use of a bit with a lead and chain*. (*See tack requirements).
- C. Horses are shown on a triangle * in the walk and the trot only, no canter. They are shown going to the right with the runners on the left side or the outside of the horse. It is a good idea to get your horse used to having someone on the outside. (* See page 2 for triangle diagram).
- D. Proper body conditioning is important to have and will produce the best results.

13. Arriving at the site:

Upon arrival find site host, inspection office, or a volunteer and gather the following information if not provided ahead of time:

- Ask where to park and unload.
- Ask where your horse's stalls are located.
- Ask where you're to park your trailer after unloading.
- Ask where to go once your horses are settled to check in get your bridle tags , pay for runners, and find out the order of "go" (you should ask what the planned order of "go" is, if that information has not previously been provided to you). Commonly the show will start with the older stallions as the judges may want to look at a stallion a second time at the end of the show day, or it may start with IBOPS. The judges can change the order of "go" from how it is listed in the program at any time, so an organizer cannot commit to a set time for your horse. It is always best to arrive in the morning prior to the Inspection start. If you have extra time ask the site host if you can help.

14. Site Safety:

- A. Each site will have their own list of safety rules and requirements you must follow.
- B. Even if you are performing an IBOP, never lunge, ride, or drive your horse at the inspection site without asking the site host for permission.
- C. If the site does not have your name and information on your stall door(s) it is suggested you write your name and cell number on a piece of paper and post it on your stall, so if anything happens with your horses, someone can contact you immediately.

General Information

- D. All foals should be kept on leads until their turn in the arena.

15. Rules and Conduct- General:

- A. Each site will have posted or noted safety rules and requirements you must follow.
- B. Everyone helping at the site is a volunteer, so please be courteous. Please conduct yourself in a horse conscious, safety minded manner. If you are confused, need help, or have questions, don't hesitate to approach a volunteer at the site so that the show managers can help you promptly.
- C. The site host is the FHANA representative at an inspection; they have the final say and are the authority at each Inspection with the full backing of FHANA. Disorderly conduct and willing disregard of the site rules will be reported to the FHANA Board of Directors for review.
- D. No one is allowed in the arena during the inspection. NO owners, friends, non-official photographers or videographers or any other non-essential persons may be in the ring during the inspection. Exceptions: Handlers are allowed to enter to catch/ lead horses. The judges may invite owners into the ring to speak to them and/or for them to accept awards. Site volunteers may go in and out during the course of their Inspection job, and the official site photographer and or/ Videographer may be in the ring.
- E. No owners or handlers are allowed to stand in the main ring. People or persons in non-compliance to these

rules, will be reported to the FHANA ethics committee and could be asked to leave the inspection.

16. Rules and conduct –Judges:

- A. The group running the site will generally designate someone to be the judges' liaison. If you have a question or concerns during the inspection, DO NOT approach the judges directly, take your concerns or questions to the judges' liaison or the site host, and they will determine if the judges need to respond.
- B. During breaks, lunch or measuring, treat the judges with respect and only exchange pleasantries. DO NOT ask them about your horse or ANY questions about the inspection.
- C. ALL DECISIONS AND RANKINGS MADE BY THE JUDGES ARE FINAL.
- D. At the end of the day providing there is time, the Judges are usually happy to do a short question and answer session with any and all who wish to participate. Any questions regarding an owner's specific entries are welcome at this time. Providing there is time for this, the announcer will announce the Q and A availability at some point during the show.

17. The Inspection:

- A. **Measuring:**
 - Prior to being judged, horses 3+ year old and older and repeats will be measured by the judges on a flat surface.
 - You must bring your horse and the original laminated papers to the measuring area when prompted.

General Information

-Microchips will also be scanned at this time. Horses are measured prior to showing to determine if they qualify in their height for Studbook, Ster, etc.

I. Height Requirements (measured at the withers)

-Stallions:

1.58m (15.2 1/4hh) as 3 YO

1.60m (15.3hh) as 4+ YO

-Mares:

Studbook: 1.54m (15hh)

Star: 1.56m (15.1hh)

Crown: 1.58m (15.2 1/4hh)

Model: 1.60 (15.3hh)

-Geldings:

Studbook: 1.54m (15hh)

Star: 1.58m (15.2 1/4hh)

B. Waiting Area/ Staging Area:

-Most sites will have a waiting area where horses are queued awaiting their turn.

-For safety reasons only persons handling horses should be in this area.

C. Registration papers:

-Bring your original registration papers or foal paper to the staging area and measuring area.

-The runners will take your papers when your horse enters the arena and give them to the judges.

-Generally, NEW papers with inspection results will be returned in 30-60 days. If your horse received a new status (Ster, Crown, Model, etc.), you will be invoiced for the additional fee by FHANA and payment must be made prior to your papers being returned.

D. Microchip reading:

-Your horse's microchip will be scanned twice during the inspection and compared to the microchip number on the registration papers. It will be scanned once when your horse is measured and again prior to entering

the main arena. This is to insure that the correct horse is being judged and measured.

E. Your turn:

-Please do not be tardy to the main arena or the staging area. Horses that arrive late can be skipped by the management or you may be placed at the end of the class. Follow the directions of the announcer, ring master or the entry gate volunteers.

F. General Rules-Main Arena

-No dogs.

-No smoking.

-No riding or driving unless you are presenting for the IBOP.

-If participating in the IBOP test, please ask permission before using main arena.

-Horses being shown at liberty/loose must be on lead until they are asked to show.

-No spectators, unofficial photographers, or videographers may be in the arena at any time.

-Event staff may be in the arena.

-Handlers/Trainers must wait outside of the arena unless presenting/running a horse.

-Owners may only enter the arena by invitation from the designated judge or judge's liaison.

-Equestrian appropriate attire and footwear is required for anyone in a horse occupied area.

G. General Rules- Warm Up Arena/Area

-No dogs.

-No smoking.

-Riding or driving allowed for IBOP participants only.

-Longing and groundwork/exercise privileges allowed for IBOP participants, only by permission of the show manager.

-Helmets required for riding and driving IBOP participants during warming up.

-Only trainers/grooms/handlers may be in the arena.

-No loose horses including foals.

General Information

- Do not tie or leave horses unattended.
- Let others know if you are entering with a stallion or unruly horse.
- Safety first, always be aware of your surroundings and proximity to other horses and humans.
- Equestrian appropriate attire and footwear is required for anyone in a horse occupied area.

Showing Instructions By Category

SHOWING FOALS (foals are shown with their dam or a surrogate):

1. After having the microchip scanned, take your original papers and your horse and hand them both to the runners at the entry gate (unless, of course, you are doing it yourself or having a trainer run your horse)
2. Papers will be handed to the judges. Your foal will then stand for them as they are examined, then the foal will be turned loose and encouraged to walk and trot as the dam is walked and trotted on the triangle. Have handlers ready and on hand to catch the foal and take both horses from the ring when prompted. The judges will speak about your foal and give you a ribbon and a card with some basic scoring.
3. At the end of the class the highest ranking foals will be asked to come back in the ring for the determination of Champion and Reserve champion. No foal awarded less than a second premie can be considered for Champion or Reserve Champion.

SHOWING MARES OR GELDINGS

1. All horses in a particular class will enter the arena together to circle the arena at the walk. This is done by the owner, runner, or trainer of the horse. (****BE PREPARED TO WALK YOUR OWN HORSE****) At this time, the judges are not judging your horse. This is to allow

your horse to become relaxed and familiar with the arena.

2. After having the microchip scanned take your original papers and your horse and hand them both to the runners at the entry gate (unless, of course, you are doing it yourself or having a trainer run your horse)
3. Papers will be handed to the judges, your horse will then stand for them as they examine the horse, and fill out a **linear score form**.* The horse will then be walked and trotted on the large triangle. The judges will be examining the horse's transitions in and out of the turns. When prompted, collect your horse at the out gate. Ribbons and comments will generally not yet be given until the end of the entire class.
4. At the end of the viewing of the entire class, all horses being considered for a premium from that class are brought back into the ring together, at this point if you do not have a groom or handler you will have to lead your horse yourself. Often, the horses will circle the arena several times, during which they are still being judged. The judges will then line the horses up and give out the premiums and ribbons. The top horses from the class will then be asked to stay in the ring and perhaps have another go round vying for the Champion and Reserve Champion. Depending on the number of horses entered. (classes may be combined by the Judges).

* **The linear score form** is a one page form that the judges use to determine the overall quality of the horse. This form is only filled out once, the first time a 3+ yr old horse is shown for studbook. You will receive a copy when your papers are returned. If you would like to know what is on the form prior to the Inspection, a translated version can be downloaded at the FHANA website.

General Information

SHOWING STALLIONS

1. All horses in a particular class will enter the arena together to circle the arena at the walk. This is done by the owner, runner, or trainer of the horse. (****BE PREPARED TO WALK YOUR OWN HORSE****) At this time, the judges are not judging your horse. This is to allow your horse to become relaxed and familiar with the arena.
2. After having the microchip scanned, take your original papers and your horse and hand them both to the runners at the entry gate (unless, of course, you are doing it yourself or having a trainer run your horse)
3. Papers will be handed to the judges, your horse will then stand for them as they examine the horse and fill out a linear score form.* Then the horse will be walked and trotted on the large triangle. The judges will be examining the horse's transitions in and out of the turns. The judges will give comments, and you may be asked to show your stallion again to the judges at the end of the day, at which time he may be judged at **liberty***. Or they will tell you he is not selected for Ster or central proving, in which case you will not be showing your stallion again that day. When prompted collect your horse at the out gate.

***Liberty Cage judging:** Some locations may have a special pen or box available to facilitate the judging of stallions at liberty.

BEST OF SHOW/GRAND CHAMPION

At the end of the Inspection a "Best in Show" or Show Day Champion will be selected by the judges from the highest ranked horses of the day. Those horses will be asked back into the arena and one grand champion /best of show will be selected and awarded. No horse awarded less than second premie can be considered for Show Day Champion.

SHOWING IBOPS

Please refer to the FHANA website for IBOP ridden or driven tests.

All other Inspection and IBOP rules, regulations and Information can be found on the FHANA website.

AFTER THE KEURING

1. All registration papers collected by the jury that require changes will be sent to the FHANA office by the site host.
2. All changes to the horse's records will be updated by the KFPS/FHANA and new papers will be sent to you. You can typically expect the papers to arrive in late October to early November.
3. If your horse has earned a Predicate, your Predicate fee must be paid before your papers will be distributed. (Please see Categories and Fees on page 1.)
4. Linear score sheets will be distributed with your registration papers. Horses in Categories 5, 6, 12, and 17 will receive full linear score sheets. Horses in Categories 7, 8, 9, 10, 13, and 14 will receive abbreviated linear score sheets.

General Information

Check List:

- Make sure all your contact Information, provided to FHANA and the Inspection site is current.
- Complete and send in Inspection form prior to posted deadline.
- Get your foals Micro chipped and your Coggins and Health Certificates done prior to the inspection.
- Check in with site Host for additional fees and Health Certificate/ Coggins requirements.
- One week prior to Inspection check in with site host, if you have not been previously notified, ask when you need to arrive.
- Tell the host if you will want a runner and find out what the price will be per horse. **BRING CASH** (A mare and foal count as one)
- Bring temporary papers for foals and laminated registration papers for all horses entered.
- Bring the Health Certificates and/ or Coggins as required by the Site.
- Bring tack, clothing and grooming supplies.
- Bring horse care items, feed, buckets, hose and stall cleaning supplies.
- Check in with site host or barn manager when you arrive.
- Be flexible, order of 'go' can change at the Judge's discretion on short notice during the Inspection.
- The Judges, Site Host and volunteers, work hard to put on the inspections, please thank them.

Attaching and Locking your Bridle Tags

1. Place Bridle Number stem through browband loop, with numbers facing in.

2. fold metal stem UP towards the horses ears.

3. Fold the tag down, so that the numbers are facing out. you now have a locked tag.

The Triangle Arena

Linear Scoring

The Linear Scoring Form

The judges will complete a linear score form on each adult horse the first time it is judged. The linear scoring form provides detailed information about the conformation of a horse. The form is made up of two parts: the upper bar-graph column and the lower bar-graph column. The information in the upper and lower bar graph columns is an important tool for selecting a stallion.

The upper bar-graph column

The upper bar-graph column gives a description of 27 conformation characteristics. The choice in favor of these characteristics is based on the relationship of these characteristics with the breeding objective characteristics for racial type: endurance and aptitude for sport. The characteristics are scored in 9 categories using scores of 5 through 45. The scoring is strictly about the making of an observation in which the highest score is not always the most desirable. The scoring form indicates by means of gray shading what the most desirable score is for each characteristic. This can then be used as a benchmark to see how well the horse compares to the breeding objective for each element.

The lower bar-graph column

In the lower bar-graph column, an assessment is given for 5 main characteristics using scores from 3 to 9. In a certain sense, this assessment is an interpretation of the scores received in the upper bargraph column. Needless to say, the assessment also considers supplementary

relevant elements. There is a general relationship between the lower bar-graph column and the awarding of premiums:

Average score premium

- < 6 not included in studbook
- 6 included, no premium
- 6 – 7 included, third premium
- 7 included, star, second premium
- > 7.5 included, star, first premium

Please note: For purposes of awarding premiums, the characteristics of racial type, walk and trot count heaviest. Furthermore, a horse that receives a score of 4 or less for one or more characteristics will not be registered in the studbook, and a horse receiving an unsatisfactory score (5 or less) for one or more characteristics in the lower bar-graph column cannot be entered in the star register.

IBOP- General Rules

GENERAL RULES FOR FRIESIAN HORSES SUITABILITY EXAMINATION (IBOP)

Responsibility

The IBOP is conducted by the Koninklijke Vereniging "Het Friesch Paarden-Stamboek" (KFPS).

Purpose

The purpose of this examination is to establish a horse's suitability for various uses and to do so with the greatest degree of objectivity. Every horse aged four or older can be presented for this examination (riding test, driving test or show driving test). Participation in more than one test on the same day is possible. Horses can be entered for the examination via the KFPS. The results of an IBOP test can be used for obtaining the star, crown or model titles (see the KFPS registration regulations).

Participation

Regardless of discipline, a horse may participate in an IBOP no more than once a year. This examination may be administered on the same day or on two different days. If the maximum number of two IBOP tests are being conducted on the same day, these will have to be in two different disciplines.

Presentation method

All tests will be ridden/driven individually. After the completion of the IBOP riding test, the participants will return to the ring in groups of two or three. At the request of the jury, the participants can be asked to repeat one or more of the components. The tests as well as an explanation of the assessment criteria can be found in the most recent edition of the KFPS test booklet.

Training/basic condition

The horse being presented can be excluded for reasons to be determined by the jury committee (illness, lameness, etc.). The examinations can also be terminated by the jury committee if, in its opinion, the horse is not being presented or ridden in an acceptable manner. The owner of the horse can determine whether he/she will present the horse him/herself or whether this task will be conducted by a third party. Changing riders for various tests is also permitted.

Members of the jury

The jury consists of two qualified jury members who have been appointed by the KFPS.

Results of the examinations

The jury will record its findings on a certificate. In addition to the scores, the committee shall also provide a brief explanation and any other significant information if necessary. To authenticate the certificate, the chairperson of the jury or another officer designated by the KFPS dates and signs it. The chairperson of the jury will notify the interested parties of the findings at the conclusion of the examinations. The interested parties will be sent the certificate after the test has been conducted. The findings will also be published in Phryso and on the KFPS website.

IBOP- General Rules

KEYS TO SCORES

The suitability for dressage testing under saddle will be evaluated in accordance with the regulations and dressage testing book of the KNHS, but the various figures (0-10) used for scoring the various components listed under the evaluation headings can be described as follows:

0 not performed

1 very poor

2 poor

3 fairly poor

4 less than satisfactory

5 unsatisfactory

6 satisfactory

7 more than satisfactory

8 good

9 very good

10 exemplary

The scores for each component shall be given in half and whole points.

IBOP- Explanation of Evaluation Criteria

Walk:

The walk is a marching gait with a four beat (four tempi). The four legs are alternately and individually lifted up and put down, e.g. starting with the left hind leg: left hind, left front, right hind, right front, left hind, etc. The hind leg propels the front leg as it's being put down. The movement of the walk has to flow through the whole body of the horse. The legs on the same lateral side form a clearly recognizable V-shape for a brief moment. In the IBOP tests only the medium walk is requested. The horse in medium walk moves lively and natural. It shows an active and calm image. The walk has regularity and is determined. The rider leads the horse in a continuous light bend at the pole. Characteristics: regularity, suppleness, ground coverage, activity, relaxation.

Trot (riding and driving tests):

The trot is a gait with a two beat (two tempi). The horse moves forward by a succession of simultaneous lifting and lowering of a diagonal pair of legs (left front with right hind and right front with left hind), alternated with a moment of suspension, e.g. left front with right hind, suspension, right front with left hind, suspension, left front with right hind, etc. The trot is always free, active, and regular in the leg placement. In the IBOP riding and driving test the working trot and the medium trot are asked for. The trot in the IBOP show-driving test is described separately next. The working trot is a gait in between the collected and the medium trot. The horse needs to show itself in good balance. The horse is on the bit and moves forward with even and elastic strides, all the

while with very active hindquarters. With active hindquarters we do not mean that the horse is ridden to or in collection but that it is ridden with sufficient impulsion, so that the hind end propels and carries. The medium trot is a gait in between the working trot and extended trot. The horse moves forward freely and extends the strides visibly with an even lengthening and a corresponding lengthening in the upper line. This lengthening comes from a clear impulsion with propelling power from the hindquarters. The rider allows the horse to lengthen the neck forward and downward and has the horse's head a bit more in front of the vertical than in the working trot. The strides remain regular and the movement is balanced and relaxed. The horse covers with its lengthened strides more ground but the speed with which it puts its feet down does not increase. Characteristics: regularity, looseness, suppleness, self-carriage, bend in the hock.

Trot (show-driving test):

The trot is a gait with a two beat (two tempi). The horse moves forward by consecutively lifting and lowering a diagonal pair of legs (left front with right hind and right front with left hind), alternated with a moment of suspension. Example: left front with right hind, moment of suspension, right front with left hind, moment of suspension, left front with right hind, etc. The trot is always free, active, and regular in the leg placement. In the IBOP show-driving test the trot distinguishes itself from the trot in the riding and driving tests by much suspension, front legs that are well placed forward, high (knee) action of the front legs and hind legs, and hind legs

IBOP- Explanation of Evaluation Criteria

that powerfully come under. With hind legs that powerfully come under the forehead of the horse becomes lighter, which makes it rise in the front. The trot is paired with a proud demeanor of the horse.

Characteristics: compared to the riding and driving tests more and higher front and hind leg action, a long moment of suspension, and clear uphill movement.

Canter (riding test and driving test):

The canter is a gait with a three beat (three tempi), with, e.g. in the left lead canter the following foot fall: right hind, diagonally right front with left hind, left front, moment of suspension, right hind, etc. The canter is always regular with cadenced strides and is shown with lightness, and is started from the canter depart with conviction. The IBOP riding test only asks for the working canter and the medium canter (several strides). The working canter is a gait in between the collected and the medium canter. In this canter the horse is to show itself in good balance. While it's on the bit the horse moves forward with even, light, and cadenced strides. The hindquarters are active and propels and carries from sufficient impulsion. The medium canter is a gait in between the working canter and the extended canter. The horse moves freely forward and extends its strides visibly, with a medium extension and corresponding lengthening of the upper line. This extension is created by a clear impulsion from the hindquarters. The canter remains a pure three beat. The rider allows the horse that's on the bit to somewhat lengthen the neck forward and downward, with which the horse can have its head somewhat more in front of the vertical than in the working

canter. Characteristics: regularity, looseness, natural balance, uphill stride, bend in the hock.

HSW: acceptance of the bit, self-carriage, flexibility:

Acceptance of the bit: the degree to which the horse moves in the right frame looking at the head and neck position. Self-carriage: moving with the correct bend or straight line; position of the head compared to the horse's body. Flexibility: the ease with which the horse turns, looking at the degree of bend through the body and how the horse maintains suppleness, balance, and coordination in the requested moves.

Impulsion:

This is the rider-induced (leg and seat aids) or the natural desire of the horse to move forward, be it always controlled by the rider. The rider has control over the horse's forwardness and determines to which degree the desire to go forward leads to a change in pace. The energy created in the hindquarters is controlled by the rider and is the basis for the horse's acceptance of the bit and frame. Characteristics: forward energy comes from the hindquarters and is transformed by the rider in a forward and upward direction and collection.

Transitions:

Transitions are changes in gait to and from the halt, to and from walk, to and from trot, to and from canter, and to and from backing up. In addition transitions are asked for within the same gait, e.g. in the trot to and from collected to working to medium to extended trot (changing pace). In the IBOP

IBOP- Explanation of Evaluation Criteria

tests no backing up is asked for and no collected or extended gaits. As the training level of the horse increases the transitions and changes of pace need to be less progressive, be clearly visible, and executed at the requested location. In the IBOP tests the transitions are progressive and are allowed to have a longer introduction to the horse by the rider. There is a wider margin for the location where the transition or tempi change needs to be shown. The correct riding-technical basis is of the evaluation criterion of a transition. During a transition the horse remains relaxed, retains the rhythm of the gait until the moment of the transition, the horse needs to remain on the bit, with sufficient impulsion and the horse stays straight. Characteristics: preservation of impulsion in the transition, ridden from the hindquarters, horse remains on the bit.

Use of the hind legs Harness Horse:

The use can be distinguished by action; the degree to which the horse brings the cannon bone of the hind legs up to horizontal, the degree to which the horse propels itself forward with its hind legs (impulsion) and places them forward, and the ground coverage in between take-off and landing with placement of the hind foot well past the print of the front foot. The hock has a strong bend as well as the pastern joint. The hindquarters are placed far under the body. Characteristics: impulsion, bend in the hock and pastern, reach far under the body, power. Ridden IBOP 6 of 6 Revised September 5, 2014

Use of the front legs Harness Horse:

The use can be distinguished by action; this is the degree to which the horse brings the forearm to at least a horizontal angle through a strong bend in the knee and the degree to which the horse brings its front legs forward. Characteristics: forearm minimally on the horizontal, finishing off the movement so the front legs do not fall down but reach forward.

Suspension Harness Horse:

The duration of the moment that the horse switches between the two diagonal leg pairs and the horse is not in contact with the ground is the moment of suspension. The moment of suspension is the length in movement and is not produced by the speed of the hind leg being moved but rather by delay and suspension. Characteristics: a hind leg that is well placed forward (so not a slow hind leg), good clearance from the ground.

Front Harness Horse:

In trot the horse uses its head and neck to come to a proud uprightness. The neck is almost vertically placed from the chest, but with a large degree of bend in the pole so that the head and nose profile are carried on the vertical. Characteristics: shape of the neck, length of the neck, head and neck set, carriage of the head.

Self-Carriage Harness Horse:

Uprightness in the way a horse carries itself as evaluated in trot, with the horse lowering its hindquarters (sitting in the back) and coming up in the front (rising in the front).

IBOP- Explanation of Evaluation Criteria

The horse loosens up in the top line and retains its straightness. The overall image is clearly uphill. Characteristics: correct bend in the turns, withers higher than the croup by sitting in the back and rising in the front, relaxation of the top line.

Willingness to Work:

The desire to perform and the unstoppable urge of a horse to optimally show itself in a relatively short period of time. Willingness to work must not be confused with wanting to run or speed but is much more a character trait of the horse. Characteristics: consistency in correct movement, retaining frame, front end action, continuing to perform during the testing.

IBOP- Riding IBOP Attire and Tack Information

Attire:

Ridden IBOP-Standard National level dressage dress is required. A short riding coat of conservative color, with tie, choker or stock tie, white or light colored breeches or jodhpurs, boots or jodhpur boots, and protective headgear*. Gloves of conservative color are recommended.

***FHANA has chosen to align with the United States Equestrian Federation's rules regarding protective headgear. Below is the related USEF Rule**

Protective Headgear DRI20.5- At any time while mounted on the competition grounds, all riders under age 18, all riders while on horses competing in national level tests, all riders competing in Para- Equestrian tests, and all riders while on non-competing horses, must wear protective headgear as defined by this rule and otherwise in compliance with GR801. When a horse is competing in both national and FEI levels or tests (e.g. Fourth Level and PSG), the rider must wear protective headgear at all times when mounted on that horse on the competition grounds and during all tests. Any rider violating this rule at any time must immediately be prohibited from further riding until such headgear is properly in place. Any other exhibitor may wear protective headgear at any level of competition without penalty from the judge. Protective headgear is defined as a riding helmet which meets or exceeds ASTM (American Society for Testing and Materials)/SEI (Safety Equipment Institute) standards for equestrian use and carries the SEI tag. The harness must be secured and properly fitted. Unless jackets are waived, while in the competition ring, exhibitors wearing protective headgear must wear a short, dark jacket, dark tail coat (only permitted for tests above Fourth Level), or Armed Services or police uniform (if eligible), dark hat covers (where applicable) and

must otherwise conform to DRI20 (see GR801).

Tack:

Bridle and snaffle with drop nose band, English or combined nose band; single thick bit (metal or rubber); and single or double reins. The use of martingales and balancing reins, bandages, boots and brushing boots is not permitted. The use of spurs and whip is permitted.

Please refer to USEF Rule DR 121 for appropriate tack for Second Level and below.

Below are a few excerpts (not the entire rule) from the USEF Rule DR 121

DR 121.2. For Training, First and Second Level tests and FEI Pony tests, a plain snaffle bridle is required with a regular cavesson, a dropped noseband, a flash noseband (a combination of a cavesson noseband and a dropped noseband attachment) or a crossed noseband....a crescent noseband is also permitted at these levels. Except for the crescent noseband, buckles and a small disk of sheepskin, which may be used in the intersection of the two leather straps of a crossed noseband, the headstall and cavesson/noseband of the bridle must be made entirely of leather or leather-like material. A padded cavesson/noseband and crownpiece are allowed. A browband is required, and except for the parts that attach to the crownpiece or headstall, is not required to be made of leather or leather-like material.

IBOP- Examination Regulations for Riding Horses

General information:

The regulations and the dressage and driving examination book of the KNHS are an integrated element in this set of regulations. This means that the riding and driving tests are assessed as written in the riding and driving examination book of the KNHS and are based on the Scala der Africhting (scale of training).

Conditions:

Dimensions of ring: 20 x 40 meters (indoor or outdoor)

Set-up of ring: letters AFBMCHEK and minimal fencing behind the ring letters and at the corners

Tack:

As described in the KNHS regulations.

Examination:

All elements in the examination are to be administered all at once. This test forms the basis for the assessment of suitability as dressage horse.

Assessment:

- a. walk
- b. trot
- c. canter
- d. carriage & balance
- e. agility
- f. transitions
- g. impulsion

IBOP RIDING TEST

Walk	Trot	Canter	Carriage & Balance	Agility	Transitions	Impulsion	Total
2x	2x	2x	2x	1x	1x	1x	

Total: 110 points

IBOP- Ridden Test

20m X 40m arena

The test is the basis of the evaluation for suitability as a dressage horse.

I.B.O.P. dressage test: post at the trot, unless sitting trot is asked for.

1. A-X-C Enter at working trot, C Follow left Track
2. A LargeCircle

- X Transitiontoworkingwalk
- C Righthand
9. Between M & B Working trot
10. A Serpentinewith3turns

11. Between C & M Working walk
12. M-X-K Change hands, letting the horse stretch its neck, then adjust reins

13. Between B & F Working Trot

14. B Turn away, E Left Hand

15. Between A & F Working canter left
16. B Large circles, including a few bounds at medium canter
17. Between C & H working trot
18. F-X-H Change hands at medium trot, then working trot

19. E Turnaway
- B Righthand
20. Between A & K Working canter right
21. E Large Circle, including a few bounds at medium canter
22. Between C & M Working trot
23. B Large circle, letting the horse stretch its neck, then adjust the reins
24. A Turnaway,
- X Come to a halt, pay respects to the jury, then go forward at free walk
- C Follow right track, and leave the ring at A

IBOP- Examination Regulations for Driving Horses

Conditions:

Dimensions of ring: 25 x 50 meters (indoor or outdoor)

Set-up of ring: letters AFBMCHEK and minimal fencing behind the ring letters and at the corners

Tack:

The horse should have a well-fitted breastcollar harness suitable to the vehicle being used. A bridle with blinkers, noseband, and throatlatch is required and should be equipped with a traditional driving bit such as a liverpool or butterfly bit. The use of an overcheck, bearing rein, or sidechecks is NOT allowed.

Carriage:

The carriage must have four wheels. While a lightweight vehicle with pneumatic tires is preferred and thought to show the horse at its best advantage, this is not required.

Any suitably sized four wheel vehicle may be used.

Examination:

All elements in the examination are to be administered all at once. This test forms the basis for the assessment of suitability as a driving horse.

Assessment:

- a. walk
- b. trot
- c. canter
- d. carriage & balance
- e. agility
- f. transitions
- g. impulsion

Leave the arena in free walk

IBOP- Examination Regulations for Show Driving Horses

Conditions:

Dimensions of ring: at least 25 x 50 meters (indoor or outdoor)

Set-up of ring: letters AFBMCHEK and minimal fencing behind the ring letters and at the corners

Tack:

The horse should have a well-fitted breastcollar harness suitable to the vehicle being used. A bridle with blinkers, noseband, and throatlatch is required and should be equipped with a traditional driving bit such as a liverpool or butterfly bit. The use of an overcheck, bearing rein, or sidecheck is NOT allowed.

Carriage:

The vehicle must have four wheels. While a lightweight vehicle with pneumatic wheels is preferred and thought to show the horse

at its best advantage, this is not required. Any suitably sized four wheeled vehicle may be used.

Examination:

All elements in the examination are to be administered all at once. The test consists of two parts: a basic test and a show test.

Assessment of the show test:

- a. walk
- b. trot (use of forelegs, use of hind legs, moment of suspension)
- c. carriage & balance
- d. front
- e. agility
- f. transitions
- g. impulsion & disposition

Walk		Trot		Carriage & Balance	Front	Agility	Impulsion	Total

Total: 110 points

IBOP- Show Driving Test

25m X 50m arena

Required to use a 4-wheel cart

The test consists of two parts: a basic test and a show test.

Basic show driving test

1. A-C Enter working trot
C Track right
2. Between K and E Medium walk
3. E Turn to the center line
Between E and B Halt for several seconds
4. Proceed in working trot
B Track left
5. A-X Half 20 meter circle left
6. X-C Half 20 meter circle right
7. K-H Trot with more action H Working trot
8. Between F and A Medium walk
K-B Change rein
9. Between B and M working trot
10. F-M Trot with more action
M Working trot
11. B-E-B Circle 20 meters twice around letting the horse stretch its neck forward and downward
Between B and M Shorten the reins
12. Between K and A Medium walk
13. F-E Change rein
14. Between E and H Working trot
15. A Turn down the center line with transition to medium walk G Halt and salute

Leave the arena in trot at A.

IBOP- Show Driving Test

IBOP Show Driving Test

1. Enter at a trot on the right hand
2. On a long side of the ring, turn away and come to a halt on line AC. Inspection will follow.
3. Drive away at a trot on the right hand
4. Twice around the ring, change hands during a diagonal, and then twice around on the left hand.
5. On a long side of the ring, turn away and come line up at A-C.

At A, leave the ring at a trot.

IBOP-Iron Spring Farm Under Saddle IBOP Cup & Dream Gait Friesians Driving IBOP Cup

Iron Spring Farm Under Saddle IBOP Cup

- All individuals who enter the IBOP under saddle test are automatically entered into the Iron Spring Farm IBOP Under Saddle Cup.
- Scores and placing will be determined by the results of the IBOP scores held at the various Keuring sites.
- Ribbons will be given to the first 2 places at each location with qualifying scores of 77.
- Top 5 horses in North America with scores over 77 will be mailed an Iron Spring Farm Dressage Cup Cooler
- The North American Champion (the highest IBOP Score under saddle) will receive \$500
- The North American Reserve Champion (the second highest IBOP Score under saddle) will receive \$250

Dream Gait Friesians Driving IBOP Cup

- All individuals who enter the IBOP Driving test are automatically entered into the Dream Gait Friesian IBOP Driving Cup.
- Scores and placing will be determined by the results of the IBOP scores held at various Keuring sites.
- Ribbons will be given to the first 2 places at each location with qualifying scores of 77.
- Top 5 horses in North America with scores over 77 will be mailed a Dream Gait Friesian Driving Cup Cooler.
- The North American Champion (the highest IBOP Score, Driving) will receive \$500
- The North American Reserve Champion (the second highest IBOP Score, Driving) will receive \$250

The Vanderploeg North American Breeder's Award

- To be awarded to the best 3 or 4 year old mare judged in each year's North American keuring cycle.
- **Eligibility:** Mares must have been born in North American and be presented for their initial adult inspection in the current year to be automatically entered for this special award.
- Mares must be 3 or 4 years old at the time of their initial inspection.
- The breeder identified on the horse's registration certificate must be a current FHANA member in good standing and reside in North America.
- Eligible mares must have been sired by a stallion approved for breeding by the KFPS at the time of conception and must be out of mares registered in the main Studbook.
- **Criteria:** Upon receipt of the official results by the FHANA office of all inspections each year, the Championship title will be awarded to the highest placing mare out of all eligible mares judged each year.
- For example, if there is only one mare named as Provisional Crown, that mare will be declared the Champion.
- In the event that more than one mare is named Crown/Provisional Crown, FHANA will make the decision by comparing the mares' linear scores for the 25 characteristics evaluated.
- The winner will be the mare with the most scores falling in the desirable (shaded) range.
- In the event of a tie, the KFPS judges /inspectors who judged in North America that same year will confer and determine which mare was the best.
- If there are no mares named as Crown/Provisional Crown in any year, the winner will be chosen from the eligible mares awarded a First Premium, and so on.
- **Prizes:** (1) The champion will receive a cash prize of \$500.00 and the Reserve Champion will receive \$250.00, payable to the breeder of record on the mare's registration certificate. However, if the mare has been sold prior to the inspection and that transfer duly recorded prior to the inspection, the cash prize will be divided between the breeder and owner of record
- (2) The breeder of the winning mare will receive a special individual award
- (3) A perpetual trophy will be maintained in the FHANA office bearing the name of the winning horse and her breeder for each year.

DEADLINE: August 1, 2016

DATE: _____

THE FOLLOWING LIABILITY AND DRUG TESTING WIAVER MUST BE SIGNED TO COMPLETE THIS ENTRY FOR ACCEPTANCE.

Friesian Horse Association of North American (FHANA) Release, Assumption of Risk, Waiver, and Indemnification This document waives important legal rights, read it carefully before signing.

I AGREE in consideration for my participation in this FHANA Keuring/Inspection show,(hereinafter referred to as the Event) to the following:

I AGREE that I choose to participate voluntarily in this Event with my horse(s), as an owner, lessee, agent, rider, runner, trainer or as a parent or guardian of a minor voluntarily and with my permission participating and/or attending this event. I am fully aware and acknowledge that any event involving horses, and specifically this Event, involve inherent dangerous risks of accident, loss, both personal and property, and serious bodily injury including broken bones, head injuries, trauma, pain, suffering and/or death (hereinafter referred to as Harm).

I AGREE to release FHANA, the Event and the Host of said Event, from all claims for money damages or otherwise for any harm to me, my ward, or my horse(s) and for any harm caused by me, my ward or my horse(s) to others, even if the harm resulted, directly or indirectly, from the negligence of FHANA, the Event or the Host.

I AGREE to expressly assume all risks of harm to me, my ward or my horse(s), including harm resulting from the negligence of FHANA, the Event or the Host.

I AGREE to indemnify (that is to pay any losses, damages, or costs incurred by) FHANA, the Event and/or the Host and to hold them harmless with respect to claims for harm to me, my ward or my horse(s), and for claims made by others for any Harm caused by me, my ward or my horse(s) at the Event or while my horse(s) are stabled at the Host location.

If I am a parent or guardian of a minor participating or attending the Event, I consent to the minor's participation and/or attendance and AGREE to all of the above provisions and AGREE to assume all of the obligations of this Agreement on the minor's behalf.

I AGREE that FHANA, the Event and the Host as used above includes all of their officials, officers, directors, employees, agents, personnel, volunteers and affiliated organizations involved in this Event.

I further REPRESENT that I have the requisite training, horsemanship skills and abilities to safely participate in this Event.

Furthermore sites will be randomly chosen for drug testing. FHANA will acquire a Veterinarian to randomly sample Champion or Reserve Champions at the undisclosed site. A FHANA representative will be available to supervise the test and randomly draw the horses to be tested. The veterinarian will draw a blood sample from the randomly chosen horses. The sample will then be shipped to the USEF laboratory to be tested.

By signing this form you are also authorizing FHANA and the appointed Veterinarian to draw blood from your horse/s to be sampled by the USEF Laboratories. The sample will only be taken from your horse if they are awarded Champion or Reserve Champion in their respective classes. If you refuse to sign this form you will not be allowed to participate in the Keuring/event. No refunds will be issued. The results from the blood sample will be available in approximately 4-6 weeks after the final Kueuring/inspection. You will be notified by a Keuring Committee representative of the results of your sample.

The KFPS does not allow horses from foreign associations to be inspected and re-inspected in the same year.

BY SIGNING BELOW, I AGREE to be bound by all the terms and conditions set forth above
